v 5.0

- Overview
- What is Integrity?
- Version Timeline
- Release Changes
- v5.0
- v5.0.1
- v5.0.2
- v5.0.3
- v5.0.4
- v5.0.5
- Remaining Issues
- New Enhancements Requested
- Product-Related Issues
- Support Line
- Discussion

- **Permits creation, signing, and transmission of DD350 contracting action reports for FY04 actions and beyond**
- **Incorporates 6 requested enhancements from AFCIS web site**

v 5.0.1

- Overview
- What is Integrity?
- Version Timeline
- Release Changes
- v5.0
- **v5.0.1**
- v5.0.2
- v5.0.3
- v5.0.4
- v5.0.5
- Remaining Issues
- New Enhancements Requested
- Product-Related Issues
- Support Line
- Discussion

- **Precludes DD350 reports from being saved if document originated from a Test database**
- **Fixed report data loss when SPIIN changed from a “U” number to a “P” or “A” number**
- **Improved consistency between auto and standalone modes**

v 5.0.2

- **Provided for use of TPN (DUNS Codes) on intergovernmental agency orders.**

- Overview
- What is Integrity?
- Version Timeline

v 5.0.3

- Overview
- What is Integrity?
- Version Timeline
- **Release Changes**
- v5.0
- v5.0.1
- v5.0.2
- **v5.0.3**
- v5.0.4
- v5.0.5
- Remaining Issues
- New Enhancements Requested
- Product-Related Issues
- Support Line
- Discussion

- **Repaired unusually long data load times for PD² v4.2.1 users when creating new DD350 reports**

v 5.0.4

- Overview
- What is Integrity?
- Version Timeline
- **Release Changes**
- v5.0
- v5.0.1
- v5.0.2
- v5.0.3
- **v5.0.4**
- v5.0.5
- Remaining Issues
- New Enhancements Requested
- Product-Related Issues
- Support Line
- Discussion

- **Incorporated Change 2 to FY04 Edits**
- **Added conversion from 1997 NAICS Table values (provided by PD²) to 2002 Table values (as required by J001)**
- **Modified DD350 Report to permit display of modification numbers**

v 5.0.5

- Overview
- What is Integrity?
- Version Timeline
- Release Changes
- v5.0
- v5.0.1
- v5.0.2
- v5.0.3
- v5.0.4
- v5.0.5
- Remaining Issues
- New Enhancements Requested
- Product-Related Issues
- Support Line
- Discussion

- **Repaired non-displaying DD350 Report issue by rolling back program code to pre v5.0 report**
- **Displays warning if user may inadvertently overwrite existing DD350 report (multiple report issue)**

Remaining Issues

- Overview
- What is Integrity?
- Version Timeline
- Release Changes
- v5.0
- v5.0.1
- v5.0.2
- v5.0.3
- v5.0.4
- v5.0.5
- Remaining Issues
- New Enhancements Requested
- Product-Related Issues
- Support Line
- Discussion

- Integrity is not capable of allowing a user to write multiple DD350 reports against the same contracting action
- PD² v4.2.1 users cannot create DD1057 monthly reports
- Better Help file instructions for manual conversion of Contracting Office code to a format that J001 will accept

New Enhancements Requested

- **2003-0008**
- **2003-0010**

- New Enhancements Requested
- **Product-Related Issues**
- Standalone Mode
- Error E-50019
- Support Line
- Discussion

Integrity DD350 Standalone Mode

- Overview
- New Enhancements Requested
- Product-Related Issues
- Standalone Mode
- Error E-500 19
- Support Line
- Discussion

- Several sites have requested that the DD350 Standalone mode not require an “sa” login so that users can create DD350 reports for non-SPS contract actions
- Standalone mode was placed in product for contingency situations where an SPS server is unavailable
- Program direction limits Integrity contract reporting functionality to SPS users
 - ConWrite/ACPS users have own tool

Error E-50019

- Overview
- New Enhancements Requested
- Product-Related Issues
- Standalone Mode
- Error E-50019
- Support Line
- Discussion

- Integrity DD350 Error E-50019 reads “B1B:If B1B=A, positions 7 & 8 of B1A must be the last 2 digits of FY in which initial contract number was assigned”
- Based on DCADS and J001 edit
- Difficulty occurs if parent award document was not correctly migrated from BCAS to PD² but rather was manually input
 - i.e, the release date in PD² is not in the same fiscal year as the true release date
 - Can be fixed with AMS “Release Date” script
- Difficulty also occurs when a document with an FY03 PIIN is awarded in FY04
